# TEF-Health

## Testing and Experimentation Facility for Health AI and Robotics

Empowering Healthcare AI and Robotics Developers  
to Deliver Trustworthy Solutions to Market

[tefhealth.eu](http://tefhealth.eu)

This project has received funding with support from the European Union's Digital Europe Programme under grant agreement No 101100700.

## OUR VISION

TEF-Health pioneers the smooth integration of AI and robotics in healthcare, revolutionizing patient care and driving innovation across Europe and beyond. Through rigorous testing, validation, and collaboration, we lead the evolution of healthcare towards greater effectiveness, accessibility, and inclusivity.

## OUR MISSION

TEF-Health is dedicated to rapidly validating and certifying AI and robotics in healthcare, leveraging partnerships and top-tier facilities to ensure safety, efficacy, and ethics. Our goal is to accelerate the deployment of innovative technologies, enhancing patient care and shaping the future of healthcare.

## OUR SERVICES

TEF-Health speeds up the AI and Robotics value chain in healthcare, providing tailored support to innovators and SMEs, such as:

- Tech provider support and solution assessment
- Access to resources, clinical expertise, and High-Performance Computing
- Connectivity to healthcare networks
- Consultation by industry pros
- Regulatory sandboxes
- Technical expertise and secure testing
- Guidance on quality and compliance

TEF-Health services discoverable through our Knowledge-Graph service!

Don't forget to check out our current open call for startups and SMEs across EU member states.
